### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 9 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Walters '069. Walters discloses a housing for rolling mills which including longitudinal beams (44, 46, 48, 50), and two crossheads (51, 52) which are joined in a cruciform manner through the use of pretensioned through-bolts (see figure 2, bolts 56). Amended claims now require that the cruciform structures are “integral” with the longitudinal beams, however it has been held that the term integral is broad enough to encompass construction where a plurality of pieces are joined to form a single piece. *In re Clark (CCPA) 102 USPQ 241*, *In re Hotte (CCPA) 177 USPQ 326*, *In re Kohno (CCPA) 157 USPQ 275*, *In re Dike (CCPA) 157 USPQ 581*. Therefore Walters encompassed the newly added limitation of integral construction. Limitations of claim 2 are shown in figures 1 and 3. Limitations of claim 4 are described in claim 5 of Walters. Limitation of claim 5 are shown in figures 2 and 3. Limitations of claim 12 are shown in figure 3.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3725

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6-7, 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Walters '069. Although Walters does not explicitly teach the use of screw bolts it would have been obvious to use such in the holes 66 for rocker plates 34 since examiner takes official notice that the use of screw bolts is well known in the art the choice of construction elements and it would only depend on the desired strength of the assembly and forces acting on such.

#### ***Allowable Subject Matter***

Claims 8 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
